

REMARKS

Responsive to the requirement for election of species, applicant elects Species I, claims 1-19, with traverse.

Actually, the two groups are related to each other, not as alternative species, but rather as genus species. Specifically, Species I is the genus, the insulator being recited broadly. Species II is the species in which the insulator is specified to be an insulation film.

It is believed that all the claims are readable on the elected embodiment.

Accordingly, an action on the merits of all the claims is respectfully requested.

The Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 25-0120 for any additional fees required under 37 C.F.R. § 1.16 or under 37 C.F.R. § 1.17.

Respectfully submitted,

YOUNG & THOMPSON
